CORE COMPETENCIES

Modern Application & Cloud Solutions

- Application Development & Modernization
- Cloud Infrastructure, Migration & Edge Computing (Azure & Hybrid Environments)
- Low Code/No Code Solutions (SharePoint, Power Platform – Power Apps, Power Pages, Power BI, Power Automate, & Power Virtual Agents)
- DevSecOps & CI/CD (Continuous Integration & Deployment)
- Secure Agile Software Development
- Application Support & Maintenance

Data & AI Modernization

- Data Management & Analytics (Power BI & Azure Data)
- Data Modernization & Cloud Data Solutions
- Microsoft AI & Machine Learning (Azure AI, Cognitive Services, & Copilot)
 - Copilot Enablement (Microsoft 365, Security, GitHub, Power Platform & Custom Agents)
- Intelligent Automation & Cognitive Services Integration

Cybersecurity & Compliance

- Cybersecurity & FISMA Compliance
- Audit & Security Integration
- Cloud Security Architecture & Governance
- Continuous Monitoring & Risk Management

Digital Experience & Design

- Customer-Centered & Human-Centered Design
- Digital Experience Optimization (Web, Mobile, & Cloud Portals)
- Technical Testing & Training

Enterprise Operations & Governance

- Project & Program Management
- FOIA & Document Management (SharePoint, Power Automate, & Syntex)
- Infrastructure Management & Modernization
- IT Service Management (ITSM) & Cloud Operations

ABOUT US

Kurrent Logic LLC, established in 2009 and based in Washington, DC, delivers custom business and IT solutions to federal clients nationwide. With over 30 years of experience in the federal market, our team provides innovative, secure, and timely solutions tailored to the evolving government landscape.

BENEFITS & DIFFERENTIATORS

- **Strategic Microsoft Partnership:** Early access to Microsoft technologies and dedicated support enable faster, more secure, and innovative solutions.
- **Proactive Risk Management:** ISO risk meetings proactively identify and manage issues.
- **SecDevOps Integration:** Security is built into Agile with ISSO participation in daily stand-ups.
- **Retention:** 94.5% employee retention ensures continuity and consistent client delivery.
- **Internal & External Recruiting Pipeline:** Proven pipeline using internal mobility and external networks to quickly staff personnel and ensure mission readiness.

CONTRACT VEHICLES

- GSA MAS #47QTCA19D002N
- HUBZone Sole Source
- MDA Shield #HQ085926DE526

Multiple Award Schedule (MAS) Contract Holder

PAST PERFORMANCE

DEPARTMENT OF HOMELAND SECURITY:
U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT:

- **SharePoint Migration to Online:** Our team migrated over 1,300 on-premises sites to SharePoint Online, modernizing forms and workflows while implementing governance to improve data management and efficiency.
 - Migrated:
 - SharePoint 2016 On-prem to SharePoint Online
 - InfoPath to SharePoint Online Forms & Power Apps
 - Workflow Manager 2016 to Power Automate
 - SQL Server Reporting Services (SSRS) to Power BI
- **Application Azure Migration:** Our team migrated multiple .NET applications to Azure Gov Cloud, setting up secure environments with SSL/TLS, shifting authentication to OAuth 2.0, and leveraging Azure tools like Key Vault and Active Directory for modernization and reliability.
 - Migrated:
 - On-prem II Services to Azure App Services
 - SQL Backend to Azure SQL Server
 - Updated tech stack to the latest .NET & Angular
- **Vehicle Tracking Application:** We built a modern vehicle tracking application for an international law enforcement agency, replacing manual processes and earning a director's award for innovation and excellence.
- **HR System Application:** We developed and upgraded an HR system for a government agency, featuring robust position tracking, reporting tools, and Azure Blob storage for automated field reporting.
- **Reporting System Applications:** Since 2009, our team has supported and enhanced a key reporting system application (at FISMA High-High-High), reducing operational costs by hundreds of thousands annually while maintaining functionality and security.
 - Technologies:
 - .NET 6 (Controller and Server Tiers)
 - Language: C# – Controller, Server, and database Tiers (via Entity Framework)
 - Entity Framework (Code First) – Database w/ migrations Azure SQL Server
 - Angular 16 – Angular 18
 - Azure SQL Server
 - Applications deployed to Azure App Services
 - Azure DevOps 2022 (In Azure VM Windows 2022) – repository to store code and kept our backlog for all projects (stories, tasks, and features)
